Student Achievement Measures:

Cohort starting in June of the year listed:

|  | 2018 <br> $(2020$ on-time <br> graduation) | 2019 <br> $(2021$ on-time <br> graduation $)$ | 2020 <br> $(2022$ on-time <br> graduation) | $\mathbf{2 0 2 1}$ <br> $(2023$ on-time <br> graduation) | 3- year <br> aggregate |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Program retention rate | $86 \%$ | $100 \%$ |  |  |  |
| Program graduation rate | $86 \%$ |  |  |  |  |
| Graduate placement rate | $83 \%$ |  |  |  |  |
| The number of students graduating <br> from the program who took the exam | 6 |  |  |  |  |
| Number of students who passed <br> exam on the first attempt | 4 |  |  |  |  |
| Percentage of students who passed <br> exam on the first attempt | $67 \%$ |  |  |  |  |
| Number of students who passed <br> the exam regardless of number of <br> attempts | 4 |  |  |  |  |
| Percentage of students who passed <br> the exam regardless of number of <br> attempts | $67 \%$ |  |  |  |  |

Program retention rate: Measures the percentage of students who have enrolled in the professional program who return to the institution to continue their studies in the program the following academic year. Program Retention rate is calculated as: the number of students who returned to the program for each subsequent year divided by the total number of students in the cohort.

Graduation rate (taken from United States Department of Education): Measures the progress of students who began their studies as full-time, first-time degree- or certificate seeking students by showing the percentage of these students who complete their degree or certificate within a 150\% of "normal time" for completing the program in which they are enrolled. Graduation rate is calculated as: the sum of students with a Graduated status divided by the total number of students in the cohort (excluding students with the status of leave of absence (medical) or deceased).

Graduate employment/placement rate: Percentage of students within 6-months of graduation that have obtained positions in the athletic training field.

Employment rate is calculated as: the sum of students that report on the email survey (Objective 2 of Outcome 2,
Standard 4) employment as an athletic trainer or closely related field, or continuation of education, then divided by the total number of students who have graduated (excluding students with military service or deceased).
